PRESIDENT'S MESSAGE

Build, Build, Build! Yes, It is that time of year to build Toys 4 Tots items. For many children in Claremore this year our toys may be the only Christmas gifts that they receive. On May 25th a

tornado tore through Claremore adding another financial burden to many families and businesses. So buying Christmas gifts is not possible for families affected. The lines of people waiting for Christmas there are always long. They will be longer this year! So this is a opportunity to make a difference.

Make a child happy! Build a toy!!!

Thanks for all that you do!!!

Vinton Knarr

THIS MONTH'S MEETING

Thursday, September 9, 2024 @ 6:30 PM

Hardesty Regional Library, **Pecan Room**

8316 E 93rd St, Tulsa, OK

Porter Cable 18 ga ¼" narrow crown stapler, in case. \$50

Porter Cable Bammer fuel cell 16 ga cordless finish nailer kit, lightly used for one crown molding remodel project over 10 years ago. \$80

“Western Hemlock” from www.wood-database.com

Common Name(s): Western hemlock

Scientific Name: *Tsuga heterophylla*

Distribution: Northwest coast of North America

Tree Size: 165-200 ft (50-60 m) tall,
3-5 ft (1-1.5 m) trunk diameter

Average Dried Weight: 29 lbs/ft³ (465 kg/m³)

Specific Gravity (Basic, 12% MC): 0.37, 0.47

Janka Hardness: 540 lbf (2,400 N)

Modulus of Rupture: 11,300 lbf/in² (77.9 MPa)

Elastic Modulus: 1,630,000 lbf/in² (11.24 GPa)

Crushing Strength: 7,200 lbf/in² (37.3 MPa)

Shrinkage: Radial: 4.2%, **Tangential:** 7.8%,

Color/Appearance: Heartwood is light reddish brown. Sapwood may be slightly lighter in color but usually isn't distinguished from the heartwood. Occasionally contains dark streaks caused by bark maggots. The conspicuous growth rings can exhibit interesting grain patterns on flatsawn surfaces.

Grain/Texture: Grain is generally straight, with a coarse, uneven texture.

Rot Resistance: Rated as non-durable regarding decay resistance, and also susceptible to insect attack.

Workability: Overall working properties are good, but because of the disparity between the soft earlywood and the hard latewood, sanding can create dips and uneven surfaces. Glues, stains, and finishes well.

Odor: No characteristic odor.

Allergies/Toxicity: Western hemlock has been reported to cause skin and respiratory irritation, as well as runny nose. See the articles [Wood Allergies and Toxicity](#) and [Wood Dust Safety](#) for more information.

Pricing/Availability: Western hemlock is one of the two primary commercial species of hemlock harvested in North America—with the other being eastern hemlock (*Tsuga canadensis*). Western hemlock is used as construction lumber and is commonly grouped together with other species of fir and hemlock and sold under the more generic label “HEM-FIR.” Expect prices to be moderate for a domestic softwood.

Sustainability: This wood species is not listed in the CITES Appendices, and is reported by the IUCN as being a species of least concern.

Common Uses: Boxes, pallets, crates, plywood, framing, and other construction purposes.

GREEN COUNTRY WOODWORKERS

The Green Country Woodworkers are made up of men and women who are interested in woodworking as a hobby.

The monthly meetings are conducted as educational forums for the benefit of our members and guests. We have idea exchanges, problem solving sessions, safety tips and tool tips plus a main speaker on topics related to woodworking in all its phases.

The club sponsors community service projects such as making Toys for Tots at Christmas and supporting Beads of Courage by turning bowls and making boxes for children undergoing cancer treatment at Children Hospital at Saint Francis. The containers hold the children's beads. The beads represent their treatment progress.

KNOTHOLE NEWS

OBJECTIVES

- To provide the Knothole News, a monthly newsletter
- To promote woodworking and participate in woodworking and craft shows to inform the public of club activities
- To make wooden toys which are donated to selected organizations throughout the year
- Monthly Show & Tell; all items entered in the show and tell will be presented to the membership by the builder

Membership applications are available at each meeting from the club secretary or treasurer. At this time, no membership fee is charged.

MEETINGS

The club meets on the second Thursday of each month at 6:30PM at Hardesty Regional Library.

We also have a monthly dinner/social on the 4th Thursday of the month at 6:00PM; the location is determined during the regular monthly meeting.
